Wisconsin HealthCorps

Wisconsin HealthCorps is a joint AmeriCorps program between the Wisconsin Primary Health Care Association and the Wisconsin Public Health Association.

Wisconsin HealthCorps places AmeriCorps members in Community Health Centers or Public Health Departments, serving on various levels of the health care delivery system. AmeriCorps members will serve as Community Health Workers (CHWs) in Community Health Centers and Public Health Departments. CHWs’ role will be to work with individuals and communities to identify health risk factors and use prevention methods to improve health.

Members will serve in various capacities: as patient navigators, health educators, and community outreach specialists, working in unique ways specific to the needs of the communities in which they serve. Members will also be responsible for recruiting volunteers.

The service day, hours and activities will vary and the position is considered full-time at 35 hours a week, for a total of 1700 hours over the service year.

Apply beginning June 1, 2011, on the AmeriCorps Web site.
