Bilingual HIV Case Manager

AIDS Network seeks a full-time Bilingual HIV Case Manager to provide case management services for people living with HIV/AIDS, community outreach, and prevention education in the Latino community. This professional position requires Spanish fluency (conversational and written) in order to provide case management services (85%) and assist with HIV prevention activities including testing and counseling (15%).

Expectations include:

- Strong knowledge of and familiarity with the Latino community and culture
- Ability to work effectively with diverse populations
- Ability to provide culturally sensitive services
- Comfort with issues of sexuality, substance abuse, and mental health
- Capacity to maintain and establish effective relationships with internal and external service providers
- Ability to identify and assess needs and help clients and patients with structured service plans linking them to appropriate health care and services
- Capability to provide effective outreach and education in the community; network with community stakeholders; ability to represent the agency at community events and meetings
- Ability to recruit for and facilitate support groups
- Strong communication, time management, and computer skills required.

Bachelors in Social Work or equivalent degree preferred, graduate degree a plus. Other relevant education, work, or life experience considered. Experience with public benefits, health care, and advocacy desirable. Reliable automobile, insurance and valid driver’s license required. Good starting salary and benefits ($31-33k).

Go to www.aidsnetwork.org under Contact for complete job description and to retrieve an application. Submit completed application, cover letter and resume by Friday, March 21, 2014 to the below address. Application materials may be emailed, mailed, or dropped off at the below address. Incomplete applications or materials will not be considered.
