Agrace Hospice and Palliative Care

Agrace is a nonprofit, community-based health care agency. We provide hospice and palliative care services in private homes, and in skilled nursing, assisted living and other community residential facilities across southern Wisconsin and northern Illinois. Our offices are located in Madison, Janesville and Baraboo, Wisconsin; and in Rockford, Illinois.

Catholic Charities – Madison

Community Living Connections

Community Living Connections is a local non-profit organization, providing support to individuals with a wide range of ability levels.

It is the Mission of Community Living Connections to support individuals to live their best life in their own home and in their community. We believe that all people have the capacity to increase independence and to express choices, thereby shaping and modifying all aspects of daily life. Therefore, it is our aim to teach each person the skills necessary to become a self-advocate, who is an active and involved member of his or her own community. Through guiding and education, we encourage each person to reach his or her full potential as a valued and self-expressive human being. We respect each person’s unique contribution to the direction of our future and the success of our organization.

Dane County Department of Human Services/Children, Youth & Families Division

The Children, Youth & Families Division of Dane County Department of Human Services works with children who have been victims of abuse and neglect and their families and with youth involved in the juvenile justice system and their families. We provide alternate care services for children and youth who cannot remain in their family home, and services for youth with mental health and/or substance abuse treatment needs. Services provided include assessment and case management.

Dane County Children, Youth & Families Division also employs Joining Forces for Families (JFF) social workers who work to support individuals in the
community and link low income families to critical safety net resources to keep their households stable and functioning.

**Family Health LaClinica**

Family Health La Clinica is a Federally Qualified Health Center (Community Health Center) providing medical, dental and behavioral health services within a 10-county region of Wisconsin. We focus on serving the underserved and vulnerable who often lack access to services. Family Health La Clinica is expanding Behavioral Health Services by partnering with Adams, Juneau and Marquette counties to develop the Community Recovery Program to help people facing opioid and other addictions.

**Heartland Home Health Care and Hospice**

Heartland Home Health Care and Hospice, a subsidiary of HCR ManorCare, is a leading national provider of home care, hospice, and IV care services with over 100 hospice locations, over 75 home care locations, and 3 IV care pharmacies. Heartland is part of HCR ManorCare which is a leading provider of short term, post-hospital services and long-term care with decades of experience helping patients and their families. Our growing network of skilled nursing and rehabilitation centers, assisted living facilities, outpatient rehabilitation clinics, and hospice and home health care agencies provide an exceptional brand of care. The company operates under the respected names of Heartland, ManorCare Health Services and Arden Courts.

**Norris, Inc.**

Located in rural Waukesha County, Norris is a multi-service youth treatment facility serving adolescent males ages 12-17 years of age and their families. We offer specialized treatment in the areas of mental health, sexuality, and substance abuse. Based on the Risking Connections model, our programs offer intensive programming that is both family-focused and trauma informed. An integrated continuum of care between campus and community-based services allows for more successful transitions and durable results.

Our services include:

- Residential Treatment
- Short-term assessments
- Psychological evaluations
- Medication evaluations and management
- Individual, family and group therapy
- Experiential therapy, including high and low ropes challenge courses.
- DPI-certified Norris Academy
- Treatment Foster Care program
Orion Family Services

Our organization is contracted by three separate counties Green, Rock and Jefferson and sometimes Dane. CPS contracts our team to do random checks on families to ensure their safety and the safety of the children. There are times that we perform UA’s and breathalzayer’s when the counties request it. We also do supervised visit and transport the children to and from the visits. We also mentor children and respite, where we take the child out of the home that either has behavior issues or special needs and we take them to do fun things or whatever they are interested in doing.

Porchlight, Inc.

Porchlight strives to reduce homelessness in Dane County by collaborating with the community to provide shelter, affordable housing, and supportive services that eliminate barriers and empower the individuals and families we serve.

Porchlight is hiring for Safe Haven Shelter Case Managers! Safe Haven provides a day shelter and permanent housing program for homeless adults with a diagnosed mental illness. The Safe Haven Case Manager assists shelter guests to access basic needs such as shelter, food, shower and laundry facilities, telephone and mail services, etc. The Safe Haven Shelter Case Manager also provides an array of supportive social services designed to connect shelter guests with housing and mental health care, and to help shelter guests overcome financial, personal, health, employment, and other functional barriers.

REACH DANE

Reach Dane provides high-quality early childhood services to over 1,000 children ages 0-5 in Dane County through center based and home visitation programs. Our mission is to change the lives of underserved children and families through education and supportive services. Our staff work tirelessly every day to reach the most vulnerable children and families in our community, and the need for our services is growing. The number of infants and toddlers experiencing homelessness enrolled in our programs has tripled over the last four years. Last year, Reach Dane served more homeless children than any other Head Start program in Wisconsin.

Reach Dane is the only agency in Dane County offering Early Head Start and Head Start, which provides a comprehensive system of support for families including physical and mental health, dental services, nutrition, and transportation. All of Reach Dane’s 15 centers are rated 5 stars in Young Star. In fact, Reach Dane enrolled 36% of all the Dane County children attending 5-Star centers who received a state child care subsidy.

At Reach Dane, we understand and value the importance of serving the whole family. Essential health, education, and workforce programs are often structured to serve either adults or children, rather than focusing on the entire family together. To maximize the impact of high-quality early childhood education we have adopted a systemic, holistic
approach to programs and policies to better meet the needs of low-income children and parents. This means children return home to employed parents and have access to healthcare, safe housing, and other key services. Reach Dane staff will continue to work hand-in-hand with impoverished communities to move children and parents on a path towards stability and security.

RISE

RISE emerged in April 2017 from a merger between Community Partnerships, Inc. and Center for Families, two Dane County non-profits focused on community-based, strengths-driven services to children, families, and young adults. When Community Partnerships was established in 2000, the agency’s primary focus was providing mental health wraparound services to children and their families. Since 1976, Center for Families’ services and programs have focused on building strong, stable families and preventing child abuse. Together, the organizations have more than 60 years of experience providing services in our community, and serve more than 6,800 individuals (including children and families) annually.

RISE believes in the power of human connection and the resilience that exists within everyone. We embrace strengths-based, solutions-focused approaches to addressing the mental health and wellness needs of our community. Our services provide education, support, stabilization, and coordination of care to children, families, and individuals in our community.

Saint A

SaintA provides innovative family-centered care and educational services that embrace diversity and empower children, families, and adults to improve the quality of their lives. We are a dynamic provider advancing foster care, education and mental health services.

Sand Ridge Secure Treatment Center

Sand Ridge Secure Treatment Center is one of two secure treatment centers operated by the Division of Care and Treatment Services. Opened in 2001, it houses Wisconsin's Sexually Violent Persons Program.

Making Wisconsin Safer by Reducing Sexual Violence

Sand Ridge Secure Treatment Center enhances public safety by:

- Assessing individuals for commitment purposes under Wis. Stat. ch. 980 (link is external).
- Treating and teaching patients with a history of sexual aggression toward the goal of providing a safe return to the community.
- Preparing individuals ordered by a court to be returned to the community in a manner that reduces the opportunities for sexually violent reoffending.
- Researching the causes and treatment of sexual violent offenders.
Commitment and Release Controlled by the Courts
Sand Ridge Secure Treatment Center has an average census of 350 adult men who are referred for possible commitment after they have completed their sentence within the Department of Corrections. Men are transferred to Sand Ridge Secure Treatment Center when the Department of Justice or a county district attorney files a petition for commitment. Commitment through the court process requires that the individual has a mental disorder that predisposes them to commit future acts of sexual violence. The individual also must be more likely than not to sexually reoffend in their lifetime. On admission, patients are assessed for cognitive and functional levels and level of mental disorder. Based upon this assessment, patients are placed in a treatment track designed to address individual treatment needs to lower their risk of reoffending. Patients are evaluated annually to determine whether they still meet the criteria for commitment. When a patient reaches the point in their treatment and rehabilitation that a court determines it is appropriate for them to reside in the community, state law provides two options, supervised release or direct discharge from Sand Ridge Secure Treatment Center with no supervision. Whether placed on supervised release or directly discharged: the individual is included on the Wisconsin sex offender registry maintained by the Department of Corrections.

South Madison Coalition of the Elderly
South Madison Coalition of the Elderly is a nonprofit social service agency providing social services for older adults. We work with older adults living on the south side of Madison and living in their own home or apartment.

Our social workers can assess a person’s needs and help arrange for services to meet those needs. This might include arranging for home delivered meals, transportation, in home chore and coordination of other services. South Madison Coalition of the Elderly provides services such as weekday lunches at three local dining sites, Home Chore Volunteer Program and Volunteer Guardian and Representative Payee program.

Our mission is to enhance the safety, independence and quality of life for older adults in South Madison as well as throughout Dane County.

UW-Health
UW Health is the integrated health system of the University of Wisconsin-Madison and consists of 6 hospitals and 80 outpatient sites, including Magnet® designated University Hospital and American Family Children’s Hospital, as well as UW Health at The American Center. Our expert providers, clinical social workers, nurses and staff serve the health needs of Madison, Wisconsin, and beyond.
VA Hospital - Madison

Madison VA Hospital and Clinics employs over 70 social workers and serves over 40,000 veterans. Social workers provide medical outpatient assessment and interventions to often poor, chronically ill, aged Veterans and their families. We also provide discharge planning for our 84-bed hospital and 26-bed Community Living Center. We have specialty programs in Geriatrics, Palliative Care, Women’s Health, Community Home Based Care, Spinal Cord Injury, Transplant, Post 911 Veterans, and Caregiver Support. Our mental health providers work in the Homeless Program, Addictive Disorders, Impatient Psychiatry and Outpatient Mental Health and provide assessment, case management and evidence-based therapy. The Madison VA serves 20 counties in South Central Wisconsin and North Western Illinois. We have six outpatient clinics and provide a great amount of specialty care at the Madison VA Hospital.

VA Hospital – Tomah

The Wisconsin Department of Corrections

The DOC is the state's largest cabinet agency with multiple areas of responsibility and one core mission: public safety. Our goal is the safe custody and supervision of offenders using the best, most effective correctional policies and procedures. Our focus is on keeping our citizens protected, helping offenders succeed in the community and making every effort to reduce the cost of corrections to taxpayers. A variety of programs and offices support the DOC’s public safety mission, which includes providing support and services to crime victims.

A key goal of the DOC is to reduce recidivism, which is the percentage of offenders that are convicted of new crimes after they finish their sentences. The DOC is fully committed to an expanded reentry philosophy that aims to cut repeat crime. We work toward this goal by implementing evidence-based practices that have been shown to be successful in reducing the number of prisoners returning to the state correctional system.

The men and women of the DOC are our most important asset and a constant source of inspiration. Only through their concerted efforts are we able to deliver on our public safety responsibilities to the citizens of Wisconsin.

Wisconsin Primary Health Care Association

The mission of the Wisconsin Primary Health Care Association is to improve health through the work of community health centers and their partners.
Wisconsin’s Community Health Centers

Our mission is to provide comprehensive primary and preventative health care services, which means medical, dental, behavioral health, and substance abuse care, plus connections to social services.
