Tellurian, Inc. is seeking a full time Human Service Clinician to work at the Dane County Care Center, located in Madison, WI. This is a full time position and will report to the Program Supervisor. **There is a $300.00 sign-on bonus included with this position plus another $300.00 bonus with the successful completion of the 6-month trial period.** The program provides crisis stabilization services to adults who are in mental health crisis.

**Duties and Responsibilities:**

1. Interview consumers to assess whether they meet criteria for program services, review records, and consult with other professionals to evaluate community services for appropriate referrals. Interviews may take place in settings such as local hospital ER’s or inpatient units, and State mental health institutions. Successful applicant must possess the ability to conduct face to face interviews in a variety of clinical settings to determine appropriateness for admission to the Care Center.
2. Collaborate with community providers to plan or coordinate services that meet consumer needs.
3. Counsel consumers individually and in group settings to assist them in addressing their mental illness, substance abuse, unemployment, homelessness, and other needs by facilitating psychoeducational, symptom management, and skill building activities.
4. Assist consumers in adhering to service plans, such as setting up appointments, arranging for transportation to appointments, and providing support.
5. Refer consumers to community resources to assist in recovery from mental illness and co-occurring disorders, following through to ensure service efficacy.
6. Monitor, evaluate, and document consumer progress with respect to consumer service goals.
7. Modify service plans according to changes in consumer status.
8. Assist Program Supervisor in directing other workers who provide services to consumers.
9. Enter data for reporting purposes, and generate reports as required.
10. Increase social work knowledge relating to mental illness, substance abuse, and homelessness by reviewing current literature, conducting social research, or attending seminars, training workshops, or classes.

**Position Requirements:**

- Master's Degree in Human Services field required
- 2 or more years of experience in providing social services to persons with mental illness, preferred
- Must be proficient in all MS Office software, EMR, and database management
- Wisconsin Licensed Social Worker preferred
- Substance Abuse certification desired
- Familiarity with CBRF and other licensing standards, preferred
- Knowledge of services available in Dane County for the individuals served, preferred
- Knowledge of co-occurring disorders, preferred
- Must pass Caregiver Background check
- Must have valid Wisconsin driver's license
