Rogers Memorial Hospital, the leader in behavioral health services, is seeking Social Workers for the Milwaukee campus. Position details are as follows:

- Pool (as needed) employment
- Day shift (1st shift)
- Child/Adolescent & Adult Inpatient Units

In this role you will provide therapeutic treatment services in individual, family and group settings. You will collaborate with the multi-disciplinary treatment team to develop the plan of care, including implementing goals and interventions. Experience with children and adolescents will be highly sought after. Successful candidates will advocate for and support our patients.

Required Skills

The ideal candidate will possess:

- Master’s degree in Social Work or Licensed Professional Counselor.
- Current Wisconsin SW/LPC license in good standing (APSW, LCSW, LPC-IT, LPC).
- If working with the addictions population, WI substance abuse license (SAC-IT, SAC, CSAC).
- 2 years working in a behavioral health clinical setting - experience with children & adolescents is required.
- Excellent written and verbal communication skills.

Best perk of all – working with a world-class team of professionals in the industry and gaining knowledge/experience to help you grow with the company throughout time!
