Social Work 801: Social Work Practice in Health and Aging
SPRING 2018

Instructor Name: Lori A. Pacourek, MSSW, CAPSW, LGSW
Location: HSS Room 158, Eau Claire Campus
Credits: 5 credits Advanced Practice Year-PTP
Class Day(s) & Time: Saturdays from 9:00-11:30 am
Instructional Mode: Face-to-Face
Canvas Course URL: https://canvas.wisc.edu/courses/87774
Office Hours: By Appointment
Phone Number: 608.787.9147
E-mail: pacourek@wisc.edu

I. Course Description
801 Field Practice and Integrative Seminar IV
Continuation of Social Work 800
Attributes and Designations: This course counts toward the 50% graduate coursework requirement
Requisites: MSW Student
How Credit Hour is Met: The credit standard for this course is met by an expectation of a total of 320 hours of student engagement with the courses learning activities (45 hours per credit), which include regularly scheduled instructor/student meeting times (Saturdays for 2.5 hours over 14 weeks), reading, writing, field placement and other student work as described in the syllabus.

II. Course Overview
The Advanced Practice Health and Aging field unit provides practice experiences in agency, community, health care and institutional settings that serve older adults and a myriad of patient populations and specialty areas. Students acquire skills in psychosocial assessment, resource coordination, care management, crisis intervention, and counseling. Collaboration as members of an interdisciplinary team, discharge planning, linking with community resources, patient education and advocacy are some of the major tasks and functions performed by students. Supervised experience and dynamic learning in both the field setting and the integrative seminar creates opportunities for students to acquire and develop the knowledge, skills, ethics, and values essential to the role of working with clients in a health care and/or gerontological setting. The primary objective of the field experience is to develop advanced practice skills. The primary goal of the integrative seminar is to broaden the relationship between academic coursework and clinical and other practice experience.

Advanced Practice Students must acquire a minimum of 320 field hours per fall and spring semester, for a total of 640 hours over the academic year. Included in these hours is the weekly 2.5 hour Integrative Seminar held on Saturdays. In order to ensure that students have the most productive field experience, which is the combination of attending the Field Seminar while being placed in the field, students may not finish their placement early. In addition, field settings require a commitment of two consecutive semesters of placement, due to the nature of client needs and the services provided, as well as the time needed for student's professional development, and so the student’s field experience must continue through the last week of class in May 2018.

Students are expected to document field hours on the Hourly Log form provided by the field faculty member. It is the student’s responsibility to document the field hours. If a student has questions about hours or other expectations and requirements of the program, the student should contact the field faculty member immediately. Supervision of direct practice will be provided primarily by staff members of the agency or program unit to which students are assigned. The requirement is that students will receive a minimum of 1 hour of supervision per week from the primary supervisor.

Students are expected to familiarize themselves and comply with the procedures and policies at their agency, work within the parameters of the NASW Code of Ethics and the WI State Statutes, seek appropriate supervision, and carry a reasonable workload in a responsible, sensitive, competent and independent manner in accordance with their individualized learning plan objectives and the requirements of the agency and supervisor. This includes completing agency clinical documentation in a competent and timely fashion. It is expected that students will attend agency functions that are viewed as important components of the field experience, with the understanding that the priority is on building a practice that allows for substantial direct service.

The seminar, as an integral component of the Field course, and the special activities of the Unit as a whole, are intended to support all the Competencies listed below for the Advanced Practice year. The seminar differs from the agency component of the Field
course in its emphasis and primary focus and methods. It a) utilizes a group problem-solving approach, b) provides an arena for introduction of new content, c) transcends the focus of individual agencies and d) works actively to further integration of practice and knowledge from multiple sources, using multiple methods.

Students are not permitted to end their field placement early, which is the reason a limit is set as to how many hours students may spend in field each week. The key to ensuring students have the most beneficial field experience is the combination of attending the field seminar while being placed in the field, which necessitates that students not finish their placement early. In addition, a commitment is made between the student, the agency supervisor, and the field faculty member to continue the student’s educational experience until May 2018. Field settings require a commitment of two consecutive semesters of placement, due to the nature of client needs and services provided, as well as the time needed for student's professional development. All settings provide opportunity to learn generalist (entry or advanced) social work roles.

III. Learning Outcomes: Competency Descriptions and Dimensions (Field and Seminar)
Field education is comprised of two interrelated components: 1) The field placement, and 2) the Integrative Seminar. Together, these elements are the means by which students become competent practitioners at the advanced generalist (800-801) level.

The Integrative Seminar provides students with regular opportunities for integration of course content and field experiences. The integrative seminar connects the theoretical and conceptual content of the classroom with advanced generalist (800-801) practice in field settings. In seminar, as we consult with one another and reflect on practice dilemmas, we examine practice problems in the context of social work values and how we professionally think and feel (cognitive and affective processes) incorporating each of the identified social work competencies listed in Appendix A of the syllabus.

In seminar, a generalist perspective is used to analyze and reflect on advanced social work (800-801) practice situations students encounter in their placement. The generalist practitioner combines multidisciplinary knowledge bases, problem analysis skills, and multiple practice methods to apply creative solutions to the problems and situational needs of people in their various life roles, or social and economic realities. Central to the generalist perspective are concepts of multi-level person-environment assessment and intervention, multiple targets, and multiple methods. The field practice and integrative seminar blends agency-based practice with practice theory, human behavior, social work policy/services, and social work research. The advanced generalist perspective builds on generalist practice adapting and extending the knowledge, values and skills to address more complex direct practice situations and to be reflexive social work leaders capable of addressing unique, ambiguous, unstable and complex situations.

Social Work Education is framed by a competency-based approach to curriculum design. At the conclusion of their education, social
work students are expected to be competent in 9 core areas. Competency is achieved through mastery of course content as measured through course activities, readings and assignments and behaviors learned in field experiences, and which are derived from social work knowledge, values, skills and cognitive and affective processes. The objective of this course is to help student demonstrate understanding and mastery of the knowledge, values, skills, and cognitive and affective processes relevant to the competencies described in Appendix A.

In placement, students demonstrate mastery of a set of behaviors tied to entry and/or advanced practice social work competencies that are related to the mission and goals of social work. The behaviors associated with the competencies addressed in this field course may be found in “Student Learning Plan” and the “Evaluation Instrument” found in Appendix B.

IV: Course Content

Time: 9:00-11:30 a.m., with one break
Field Seminar to Meet at HSS Room 158, Eau Claire Campus

Week 1: Saturday January 27, 2018
Welcome Back
Check In and ASWB exam question of the week
Review Syllabus
Volunteer for Graduation Planning

Week 2: Saturday February 3, 2018
Check In and ASWB exam question of the week
**Learning Plan Revisions Due
Topic: Ethics

  Practice Question: What has been a recent ethical dilemma you or your supervisor have encountered? What did you learn from it? Looking back at the situation now, what would you have done differently? The same?

Required Reading:
https://www.socialworkers.org/LinkClick.aspx?fileticket=ms_ArtLqz6l%3D&portalid=0

Week 3: Saturday February 10, 2018
Check in and ASWB exam question of the week

**Topic: Safety**

Practice Question: *What are the precautions in place at your field placement for your safety, the safety of your colleagues, and the safety of your clients? What are the strengths of these systems? Areas for improvement?*

**Required Reading:**

NASW Guidelines for Social Worker Safety
[https://www.socialworkers.org/LinkClick.aspx?fileticket=6OEdoMjcNC0%3D&portalid=0](https://www.socialworkers.org/LinkClick.aspx?fileticket=6OEdoMjcNC0%3D&portalid=0)

**Week 4: Saturday February 17, 2018**

**Topic:** Social work in the Emergency Room and Care Management departments

**Guest speakers:** Danielle Murphy-Sprain and Becky Pritchett from Gundersen Health Systems

**Recommended Reading:**

Social workers as care coordinators: Leaders in ensuring effective, compassionate care (I will get you a hard copy print of this article by February 3.)

**Week 5: Saturday February 24, 2018**

Check In-after guest speaker if there is time

**Topic:** Rethinking how we Die-a Death Doula’s Perspective on End of Life Care

**Guest Speaker:** Dr. Jackie Yaeger

**Recommended Reading:**

[https://www.huffingtonpost.com/entry/end-of-life-doulas_us_591cbce2e4b03b485cae51c2](https://www.huffingtonpost.com/entry/end-of-life-doulas_us_591cbce2e4b03b485cae51c2)

**Week 6: Saturday March 3, 2018**

Check in and ASWB exam question of the week

**Topic:** Having Difficult Conversations

Practice Question: *What is the hardest conversation you have had to have with a client or his/her family member? How did you...*
prepare for this conversation? What was your experience like? If you could do it over, would you change anything about the experience?

Week 7: Saturday March 10, 2018
Check In-after guest speaker if there is time
Mid Semester Evaluations
**Topic:** Grant Writing
**Guest speaker:** Amanda Verbrick, Grants and Contract Coordinator, WI Women’s Health Foundation

WEEK 8: Saturday March 17, 2018
NO CLASS--HAPPY SPRING BREAK!

Week 9: Saturday March 24, 2018
Check in and ASWB exam question of the week
**Topic:** Suicidality and Elders
**Guest Speaker:** Dr. Larry Skendzel, Hospice and Palliative Care Physician at Gundersen Health Systems

Week 10: Saturday March 31, 2018
Check in and ASWB exam question of the week
**Topic:** End of Life Issues through the Life-Span
Practice Question: *Think of two end of life scenarios that could lead to potential disenfranchised grief after a death.*

Week 11: Saturday April 7, 2018
Check in and ASWB exam question of the week
**Topic:** Compassion Fatigue and Burnout in Social Work
Practice Questions:  *How do you take care of yourself? How can seminar help with your self care? What does compassion fatigue mean to you? Have you ever experienced this concept in a past employment situation?*

Recommended Reading: The American Institute of Stress: Available at:
https://stress.org/military/for-practitionersleaders/compassion-fatigue/

**Week 12: Saturday April 14, 2018**
Check In and ASWB exam question of the week
**Topic:**  Practice Assessments

**Week 13: Saturday April 21, 2018**
Check In and ASWB exam question of the week
CAPE
**Change Agent Presentations**

**Week 14: Saturday April 28, 2018**
Eau Claire Keynote Speaker and Poster Presentations
**Topic:**  Macro Issues in Mental Health
**Speaker:**  Lynette Studer, PhD

**Week 15: Saturday May 5, 2018**
Check in
Semester Review
Semester Evaluations
**Topic:**  CELEBRATE YOU!!
V. Text and Reading Materials
Readings will be assigned, in advance, for specific class topics. For those identified as required readings, students are expected to come prepared for class having thoughtfully read the assigned articles or other materials. Students are also expected to complete, critically think about, and integrate with practice experiences readings and exercise materials handed out in seminar and relevant practice materials available in their agency placement. Students are encouraged to consider questions that the weekly readings might stimulate in relation to one’s field experience or other course content. Students are expected to complete and understand all currently assigned readings in social work and related courses and to review past readings to enhance understanding and integration of theory, methods and practice. Additional relevant readings may be provided by the field faculty member throughout the semester. The readings and exercises are available on CANVAS. Students are also expected to read relevant practice material available in their agency placement.
It is anticipated that students will be exposed to new substantive areas in the field that they will need to learn more about in order to gain sufficient understanding to address the needs in that area. In many cases, this will be necessary in order to make progress toward accomplishing the related competencies or behaviors in the learning plan. Students are expected to select and read a minimum of three practice articles over the course of the semester relevant to substantive areas of interest in the field setting (e.g., the populations served, social, psychological, spiritual or health issues, evidence informed interventions to address needs, or related policies). Students should indicate on their learning plan topics that will be pursued over the semester and note progress in their final semester evaluation.

VI. Evaluation: Assignments, Grading and Methods
Assignments SW 801:
In order to achieve the competencies, timely completion of assignments is expected. Students needing assistance with written assignments are expected to use available resources (e.g., the Writing Lab, 6171 Helen C. White Hall).

Carefully review the syllabus, assignments, expectations and evaluation criteria for this semester. Immediately ask the field faculty member and/or agency supervisor, as applicable, about any information, assignments, expectations, or instructions you do not
Learning Plan

Learning plan revisions are due February 3, 2018. Final learning plans must be approved by field supervisors and field faculty and signed by students, agency supervisors and field faculty. The field faculty provides students with a framework for social work practice and assistance in self-assessment in order to formulate a learning plan. In the learning plan, students, in collaboration with agency supervisors and field faculty, must identify the methods by which the behaviors outlined in the syllabus will be observed. For example, relative to competency 2.1.8, “employ diverse strategies to negotiate, mediate and advocate with and on behalf of diverse clients and constituencies in a focus area,” the student and agency supervisor could agree to the following: student will propose a plan for advocating to be approved by the supervisor and provide an outcome report relative to their advocacy work for the supervisor’s review and feedback. This indicates how the student will achieve this behavior (an advocacy plan and outcome report) and how it will be observed (e.g., supervisor’s approval, review and feedback regarding the plan and outcome report).

Learning goals must be connected to the CSWE approved nine competencies. Some behaviors may have multiple strategies and some may not be addressed in the field agency placement but would then need to be addressed in another part of the agency or another placement. The learning plan, sometimes referred to as a “learning contract,” is a critical document that can be revised overtime when indicated. It needs to be specific, observable, individualized and can be changed over time. Students needing assistance in completing it should contact the field faculty member. This learning plan is meant to be an organizational aid to help initiate, plan and update/revise your field experience. It is not intended to be a substitute for regular supervisory contact and educational consultation with faculty and professional staff. The learning plan will be signed and dated by the student and the agency supervisor or school social worker.

Integrative Seminar

There is a required weekly seminar with the field faculty member. The seminar is used for integrating theory and practice. The format for the seminar includes consultation about practice problems and issues, faculty instruction and student presentations, guest speakers and learning activities. Students are responsible for reading all assigned material so that they are fully prepared to participate in discussion and class activities.

Each student is expected to share field and other related experiences in order to enhance the integration and application of social work concepts with practice through active consultation, problem solving and support. Given the diversity of students and their life experiences and the various agency placement settings, populations-at-risk, and the human rights issues, active participation is critical to learning about various perspectives and social work in health and aging agencies. There will be time set aside for you to talk about your field experience and issues that you are encountering, both to seek consultation around challenges you are
experiencing and to enhance each other’s learning. Coming prepared to share, discuss and learn, is extremely important! Students are expected to conduct themselves in a professional manner, similar to what would be observed in the student’s field placement.

Participation and professionalism in all field unit seminars is required. Quality participation includes the ability to look at oneself and critically analyze strengths and areas for growth.

Quality participation also includes providing support and feedback to peers as appropriate, as well as seeking feedback and consultation from peers. Those whose participation clearly demonstrates having completed readings and other assignments, the ability to integrate social work concepts with field and other experiences, AND the ability to fully engage in problem solving and other exercises (presenting social work issues or other perspectives for discussion as well as responding to other students who present issues) will earn high marks in this area. Participation can be challenging for some students.

Professionalism includes being prepared and present in every class. It includes arriving on time. The policy for this course is to deduct points each time you are late to class unless the reason for your tardiness is deemed acceptable by the field faculty member. In other words, if you arrive to class after we have started, you can assume you will be deducted one or more points unless your tardiness is approved. You are expected to demonstrate an ability to listen to and ask questions of your peers in a respectful, thoughtful manner consistent with the values of social work. It also involves the ability to discuss challenges in one’s field placement in a respectful manner. This includes not only the manner in which we discuss clients, but also the manner in which you might discuss challenges with your agency supervisor or other staff. Discussing challenges in field placement in a way that is akin to “gossiping” will not be tolerated. It is recommended that students adopt the practice of discussing issues related to clients and colleagues as if the clients and colleagues were in the room. Students should demonstrate curiosity, an ability to examine assumptions, values and practice challenges, and the ability to contribute to a shared space in which it is safe to do so. Please see the field faculty member early in the semester if you need any assistance in this or any other areas.

Practice Question of the Week
This is one of several efforts to integrate theory and practice and to challenge students to think critically, analyze, question, and problem solve issues in social work practice. Each student is expected to critically think about the agency and practice (e.g., using observations, interviews, readings) in order to answer the ‘practice question of the week’ and come prepared for discussion in seminar. Students are, of course, encouraged to propose questions of their own for discussion, including those which extend beyond the local agency level to community, national, global policies and programs and implications for practice. Students are also encouraged to bring the practice questions to supervision with their agency supervisors for further processing and reflection.

Supervision, Consultation, and Evaluation
Students have three sources of supervisory guidance, consultation and evaluation: the agency supervisor, the field faculty member,
and the seminar group. The required weekly field seminar is used for integrating theory and practice. The format for the seminar includes consultation about practice problems and issues, faculty instruction and student presentations, guest speakers and learning activities. Each student will complete a field learning plan reflective both of the competencies and their particular learning needs. Students are responsible for defining and achieving the competencies and behaviors suggesting, organizing, and documenting activities; and fully participating in the field instruction process. Students are required to receive weekly supervision from their agency supervisor. Consultation is available each week during the seminar meetings and students can seek additional consultation from their agency supervisor or field faculty member, as needed.

Individual Meetings and Out-of-Class Contact
Students are encouraged to meet with me at any time during the semester. I am happy to meet before and after class but would prefer advance notice, if possible. We can also arrange a time to meet or talk by phone on non-class days. I am most accessible by text message at the phone number listed on the first page of this syllabus.

Change Agent Project Paper and Presentation
The opportunities in field to move from careful assessment to planned intervention at the mezzo and macro level supports a skill area of critical importance in all social work. Focusing each semester on mezzo and macro considerations helps to attune the student, agency supervisor and field faculty member to student learning at this level. It also assists the student and agency supervisor in supporting positive agency and system approaches to services delivery. It can assist the field faculty member and/or subsequent students to continue on your work. Finally, if results are shared with the seminar, it can assist the field unit as a whole to learn.

Poster Presentation at the Agency Supervisor Workshop (in place of seminar presentation of Change Agent Project)
Students will create a professional poster for a multi-seminar presentation on April 28th.

Meetings Together with your Agency Supervisor
Open and frequent communication among all parties over the course of the semester will help keep all of us on track. At the end of the semester, you and I will meet with your agency supervisor at the agency for evaluation of your work at the field placement. There are evaluation forms for this end-of-semester meeting that your supervisor and you will each fill out, and then share with each other, before our end-of-semester meeting.
Use of supervision includes being prepared for discussions or meetings with your supervisor as well as other professionals in the agency. Preparation would include critically thinking about and being ready to discuss and process the following:

- issues, situations, challenges, opportunities, and/or successes experienced in practice;
- what you have done or would do (e.g., options, interventions) in addressing issues or concerns and any specific questions you have regarding the matter;
- the learning plan (e.g., reviewing progress on a couple methods of achievement and its respective competency each time);
- seminar discussions and assignments, including the practice questions of the week; and
- other topics for discussion identified by the field faculty member, agency supervisor, or student.

You will also be meeting with your supervisor for a mid-term evaluation. See the section on evaluation and grading for more information. For more information on supervision, consultation and evaluation and educational roles, including those of students, please see below and the *Field Education Handbook*, section I.

**The Agency Supervisor has the following responsibilities:**
1. Participate in student selection/placement process.
2. Work with student and faculty in development of learning plans and supervisory arrangements.
3. Orient student to agency, work unit, and practice area.
4. Provide ongoing practice supervision.
5. Possible teamwork with student.
6. Provide good professional role model.
7. Consult with student on professional growth and development.
8. Provide student with ongoing constructive criticism and final evaluation.

**The Field Faculty has the following responsibilities:**
1. Responsible for student selection and community placement.
2. Develop and approve learning plan and supervisory arrangements with student and practicum supervisor.
3. Teach field unit seminar to provide relevant theoretical, policy, and problem content.
4. Share in ongoing practice supervision/consultation and help student integrate seminar content with placement experience.
5. Provide good professional role model.
6. Maintain regular contact (at least monthly) with practicum supervisor to monitor student performance, ensure learning opportunities, deal with performance problems, etc.
7. Consult with student on professional growth and development
8. Help student integrate constructive criticism and responsible for evaluation and grading.

For more detail, see “Summary of Educational Roles in Working with Field Students” in the Field Education Handbook.

Evaluation and Grading

Grading. Evaluation is on-going between the student, agency supervisor(s) and the field faculty member. The field faculty member receives feedback on your performance from you and your agency supervisor(s) and determines the grade earned. Your education is a shared responsibility, so always feel free to seek and give feedback, ask questions, make appointments, and do what you need to do to keep yourself actively learning, excited, and happy in your field setting.

Forty percent (40%) of the final grade will be based on the thoughtfulness and preparedness of your participation in seminar and the quality of your written assignments, which are all a part of professional behavior. Written assignments must be turned in by the specified due dates unless specific arrangements have been made with me in advance. Students are expected to attend all seminars, with reasonable accommodations being made as specified in University policy or for other situations such as illness, emergencies and, especially for those commuting from outside of Eau Claire when travel is discouraged due to inclement weather. Students are responsible for informing me of absences from class in advance if possible, and for following up with me as soon as possible regarding that day’s seminar content. Frequent absences from field unit meetings and/or failure to follow up may result in a grade reduction for this course. Completion of required readings and active participation in seminars, including arriving on time and demonstrating an ability to listen to and ask questions of your peers, will also figure importantly into this portion of your overall grade.

More specifically:
Regarding professionalism, field faculty will be looking for evidence of thoughtful reading of assigned materials, curiosity, ability to examine assumptions, values and practice challenges, and the ability to contribute to a shared space in which it is safe to do so.

For the written assignments this semester, field faculty will be looking for thoroughness in all of the elements noted earlier in this syllabus.

If you have not completed the required hours for field practicum by the end of the semester, you will receive a grade of Incomplete for the semester (assuming that you are otherwise passing the course and have obtained advance approval from field faculty of your
Sixty percent (60%) of the grade is based on actual fieldwork taking into account the degree to which the competencies are met through observable behaviors, including the student’s performance in the classroom and in the field. The student’s demonstration of professionalism, both in seminar and in the field, and as outlined in this syllabus, will be included in the student’s final grade. Students are expected to achieve the competencies of the field course through the observable behaviors; complete the required hours per semester, cooperate fully with agency staff and the field faculty member; seek clarification of feedback when needed; apply feedback across practice; and strive for their best performance in all field assignments. This is especially important because field practice differs from most other university courses in that the placement entails not only educational outcomes for the student, but also professional responsibilities to clients, agencies, and the community. As such, when students engage clients and assume service obligations, there are ongoing professional and ethical matters to be considered as well as the learning needs of the student. Also, considerable time and effort is spent on the part of the agency supervisors and faculty to plan and deliver a good learning opportunity. Evaluation and grading, therefore, reflect the overall quality of the performance, not merely completion of the activities. The field evaluation instrument with the competencies and respective behaviors; the student’s performance in seminar, the student’s learning plan; and the progress summary will serve as guides in the evaluation process.

The following components will be assessed based on the student’s performance:

**End of semester evaluation instrument:**
- Utilization of supervision (listens to and accepts critical feedback; ability for self-reflection and open discussion of challenges; appropriately seeks consultation with asking questions, sharing concerns and ideas; preparedness for supervision meetings)
- Participation in field placement activities (taking initiative to seek learning opportunities; shows motivation; appropriate interactions with other staff; ability to work within an interdisciplinary team)
- Cultural and ethical components of field practice (displays cultural competence with staff and clients; awareness of biases and ability to discuss these in supervision; consideration of culture and the social environment in case conceptualization; ability to identify ethical dilemmas and discuss these in supervision; adheres to NASW Code of Ethics)
- Clinical documentation (ability to work with the technology; content of notes; clinical language; thoroughness, timeliness)
- Professionalism (reliability; thoroughness; organization; adhering to boundaries; time management; ability to work responsibly and independently; completes tasks as assigned; participation and preparedness; attire; uses professional judgment)
- Attendance and timeliness (in seminar and in field)
Practice Skills:
- Engagement skills (relates well to clients and staff, ability to build rapport; ability to convey warmth, empathy and genuineness; ability to demonstrate active listening)
- Assessment and skills (ability to gather relevant information; ability to articulate a comprehensive formulation; conceptualization skills)
- Planning and goal setting (ability to develop a clear plan with specific goals and observable, measurable objectives)
- (Intervention (ability to implement interventions in line with goals and objectives; ability to understand and incorporate best practice interventions)
- Evaluation (ability to evaluate interventions and progress toward goals; ability for self-reflection on performance)

Final responsibility for grading the student’s performance in the placement rests with the field faculty member. However, considerable weight in grading will be given to the student’s agency supervisor’s assessment of the progress the student has made in fulfilling the stated competencies and the quality of the student’s work in the field placement. Field faculty will periodically review your progress both with you and with the agency supervisor and joint meetings will be held with you if indicated or desired by you or your agency supervisor. A mid-semester meeting can be scheduled if the student, agency supervisor, or field faculty member request a meeting.

In May, the student, agency supervisor and field faculty member will meet together to discuss your progress in accomplishing your learning objectives for the semester and to evaluate the overall quality of your field performance. This discussion will be informed in part by a self-evaluation form you will be asked to complete prior to our meeting, and a parallel version of the form that your agency supervisor will complete. While your self-evaluation will be given considerable weight in arriving at your final grade for fieldwork, greatest weight will be given to your agency supervisor’s overall assessment of your work. Be sure that you and your agency supervisor each have a copy of each other’s evaluation form and have shared this information with each other prior to the final evaluation meeting.

The grade equivalency for these percentages is as follows:
- 94-100 A
- 88-93 AB
- 82-87 B
- 76-81 BC
- 70-75 C (see “Field Education Handbook” regarding this grade)
The following are grading standards for the course: A grade of “A” will include:

- **Outstanding; frequently surpasses expectations in all areas (competencies and practice behaviors) on the “Student Field Evaluation Instrument” and in seminar.**
- Superior/excellent ability to utilize supervision, receive feedback from supervisor and/or instructor with minimal defensiveness, respond positively to suggestions and implement them.
- Excellent integration with the placement, ability to relate to staff, supervisor, other clinicians and students, including the ability to participate as a member of a team regarding service for clients with particularly complex service needs.
- Consistent attendance, thoughtful preparation and collaborative participation in the field seminar, with consistent evidence of having read assigned material (e.g., ability to interject major concepts from readings into discussion without prompting).
- With participation, clearly demonstrates ability to provide other perspectives, solutions, options to discussion (e.g., problem solving) AND integrate social work concepts with field and other experiences.
- Excellent, thorough and timely completion of all written and/or oral assignments for the field seminar.
- Enthusiasm and responsiveness to learning opportunities, awareness of learning opportunities and takes initiative to develop learning opportunities and take appropriate risks to further your learning.
- Consistent and excellent responsiveness to cultural and ethical components of your practice as evidenced by supervisor feedback and seminar participation.

A grade of “AB” represents very good to superior/excellent performance in all areas. It may mean that a student has met the “A” criteria in all but one or two of the above areas.

A grade of “B” represents good performance. A student earning a "B" will exhibit good performance in most areas. A student may be meeting only minimum standards in an area but is working actively to make improvements.

**A grade of “BC” indicates that the student has met the minimum criteria needed to pass the course.**

The “C” grade represents below minimum performance standards/expectations in several areas, or major deficits in two areas and may not be meeting client obligations adequately. As cited in the Field Education Handbook (p. 38): “A grade of “C” in the first, second or third semester of the field course will not allow a student to continue in the professional degree program. A grade of “C” in the final semester will not permit a student to graduate. Both situations may be remediated if the field faculty (upon consultation
with the Director of Field Education) agree to permit additional field study and practice, and the student succeeds in raising the grade upon satisfactory completion of additional work. Permission to continue in the entire social work professional degree program (field and other courses) following the receipt of a grade of “C” may be granted by the Field Course Committee upon the student’s written request and committee review of the student’s educational needs, performance problems, and the likelihood of improved performance.”

A grade of “D” or “F” may be assigned in this class and would represent extremely serious performance issues. Conditions under which these grades might be assigned include, but are not limited to, serious ethical misconduct, commission of a crime while engaged in a field activity, or using alcohol or drugs (except as prescribed by a medical provider) while engaged in a field activity.

D= failing, below expectations in many areas and may not continue in field and program  
F= failing grade, below expectations in all areas and may not continue

Note about grading: Your goal for this and other courses should be to make the most of your learning experience, and not to simply “get an A.” Your expectations about the grades you receive on assignments should be wholly based on (1) the extent to which you respond to assignment objectives, (2) the quality of your writing (to include grammar and spelling, organization, and clarity), (3) your ability to demonstrate critical thinking, and (4) your level of effort and engagement with the course and assigned material. If there is something about an assignment that is unclear to you, it is your responsibility to bring this to my attention. Grade expectations should NOT be based on what you have received in other courses—this is never a legitimate argument for appealing a grade. If you have an issue with a grade that you receive in this course, please document the reasons for your appeal in writing with specific attention to the four points raised above and I will give your appeal my careful attention.

**SPRING Semester**

**Weekly Seminar (40% of Final Grade):**
- Professionalism & Participation: 10 points
- Change Agent Project (Paper and Presentation): 30 points

**Total Maximum Points: 40**

**End-of-semester evaluations (60% of final grade):**

**Total Maximum Points: 60**
Successful completion of the course requires completion of all assignments. Your final course grade will be based on your work at your field placement and your field seminar in the following proportions:

**WEEKLY FIELD SEMINAR**
Seminar topics and required readings are noted in Section IV. There will be time set aside for you to talk about your field experience and issues that you are encountering, both to obtain consultation around challenges you are experiencing and to enhance each other’s learning. We will also be discussing aspects of the readings assigned for that week. Coming prepared to share, discuss and learn, is extremely important! Students are expected to conduct themselves in a professional manner, similar to what would be observed in the student’s field placement.

**WRITTEN ASSIGNMENTS**

**Change Agent Project Report and Presentation or Poster**
This assignment significantly expands upon an exercise you completed in the fall semester in which you identified a change agent project proposal and possible first action steps. For this semester, you are expected to continue planning, implementing and evaluating your proposal. Review the course calendar for due dates regarding this assignment.

**Report (Report of your action, outcomes, recommendations, and learning):**
In 5-7 pages, report (simultaneously to agency supervisor) and brief seminar presentation:

- What actions you took within the agency to address the selected issue and why these choices. It is understood that agency-level intervention will require considerable inclusion or, and collaboration with, a variety of agency staff and possibly others. You should detail these choices of personnel and why, and your actions toward your goal. It is required that you will share the results of your project with your agency supervisor as well as the director of the organization, prior to the due date of the report and presentation. This activity should be noted in your report (how you provided the information and the response).
- A brief description of the needs/asset assessment with an attendant statement of a practice issue or problem at the mezzo and/or macro levels such as organizations (including your field placement agency), the community (local, state, national and/or international), and policies. For example, in terms of organizations there may be user friendly issues regarding the environment, mission, policies, procedures, staffing, materials, services/programs, communication, training, and/or evaluation.
- A brief review of relevant literature/research in which you indicate if and how it helped inform your practice (minimum of
● What outcomes or results have occurred thus far? What do you make of these results? Specify if there are additional outcomes expected in the near future and why.
● How you evaluated or would evaluate the change effort (if time does not allow completion)
● What recommendations do you have for the agency (on this issue) or for other students pursuing this issue?
● What have you learned from working on this project? What you would do differently in the future? Be honest, complete, and objective as it will make your learning and written reporting more clear.
● Use generalist social work concepts and principles as well as appropriately citing all references/resources, e.g., agency supervisor, other staff, faculty, and/or other materials.

In a separate document each student will write a brief, one paragraph, description and overview of their change agent project. Students may present their change agent project at the April 20, 2018 Spring Poster session. Students who do not present a poster will report on their change agent project in field seminar.

*If students worked in groups, each student must turn in their own report and identify within the report what their individual responsibilities were throughout the project.

A grading rubric for this assignment for graduate and undergraduate students is available on Learn@UW.

**Poster** Keep in mind that while posters can take many forms, they all have structural components in common:

● Title and Byline
● Abstract
● A presentation of the Hypotheses/Objectives/Design/Methods/Results/Conclusions (this section can take any organizational form that you consider to be effective expression, and constitutes the majority of the poster space)
● References and Acknowledgments
● Stylistic constraints: text fonts and graphics must be large enough to see from a distance; generally, less text is better than more--present your ideas clearly, with a minimum of exposition; text/graphics boxes should be evenly distributed and have logical flow

Students may also view the following webpages for examples.

http://nau.edu/Undergraduate-Research/Poster-Presentation-Tips/
The purpose of the assignment is to:

- Acknowledge and share the NUMEROUS ADVOCACY AND EMPOWERMENT OPPORTUNITIES, how social work field students are change agents, and how they “make a difference” in the welfare of people and society.
- Learn more about human rights, social, economic, cultural and other issues experienced by women, children, persons of color, aging, persons with disabilities, and/or the LGBTQ population or any at-risk population.
- Develop or enhance knowledge, skills and values regarding a mezzo or macro change effort utilizing the planned change process (review SW442 & SW840).
- Complete and evaluate, to degree possible, a change effort that is effective, efficient and sustainable.
- Develop or enhance knowledge, skills, and values regarding working in teams (whether with other seminar students or others in the community).

The opportunities in field to move from careful assessment to planned intervention at the mezzo and macro level supports a skill area of critical importance in all social work. Focusing each semester on mezzo and macro considerations helps to attune the student, agency supervisor and field faculty member to student learning at this level. It also assists the student and agency supervisor in supporting positive agency and system approaches to services delivery. It can assist the field faculty member and/or subsequent students to continue on your work. Finally, if results are shared with the seminar, it can assist the field unit as a whole to learn.

LEARNING PLAN
In the learning plan, students, in collaboration with agency supervisors and field faculty, identify the methods by which course competencies and behaviors will be met and measured. The learning plan needs to be specific, individualized and can be changed over time. Please use the format for the learning plan that is provided on the Canvas site. The learning plan provides the required behaviors for each competency in column one. The student will need to formulate methods for observing and demonstrating achievement of each behavior in column two. The methods should be specific and observable, and should include what your supervisor will do to support and observe your progress toward the behavior. Column three in the learning plan will be completed by the supervisor at the end of each semester to evaluate the student’s mastery of each behavior. In section VI. Supervisor/Student Plan Schedule you should describe your plan for the weekly one hour of supervision. In section VII. Self-Care Plan please provide a description of how you will engage in self-care practices throughout the semester.
Establish at least one specific method of achievement to be observed and met at the agency that is aimed at furthering your development of skills in each of the nine competency areas.

Each method to observe and demonstrate achievement should be clearly written and followed by:

1. A description of experiences and methods you will use to reach the identified behavior
2. A description of what your agency supervisor will do in support of the identified behavior
3. A statement that describes how you, your agency supervisory, and I will know that each behavior has been met.

Students will submit an unsigned electronic draft of the learning plan to their field instructor via the Canvas site. The instructor will provide written feedback on the learning plan, potentially with recommendations for revisions. After making the recommended revisions, students will review the final draft with their agency supervisor and both will sign the learning plan. A hard copy of the final learning plan, with signatures, will be submitted to the field instructor in class as stated above. You should also provide your supervisor with a copy of the final plan. This is an ungraded assignment but a requirement to complete the course.

**RECORD of FIELD HOURS**

Students are required to use the form provided in class to record weekly how many hours you were present at your field placement. Keep in mind that missed hours must be made up. Time spent traveling to your placement does NOT count towards field hours; however, time spent traveling from a field placement to in-home sessions or community meetings or to sites of other placement activities in the course of your fieldwork does apply. Your attendance at field seminars, orientation sessions, and the end-of-semester field meeting counts towards your field practice hours. Students are encouraged to consult with their agency supervisor at the beginning of the semester to inquire how frequently they want to review the hourly log.

**This is an all or nothing assignment.** If hours are not completed and arrangements for continuing the placement over the semester break have not been made in advance with the field faculty member and the agency supervisor, or the record is not submitted on time; passing students will be given a grade of “Incomplete” for the semester until the Record of Field Hours is submitted with signatures, and students are unable to begin a new semester with an “Incomplete”.

**VII: Course Policies**

Your final course grade will be based on your work both in your work at your field placement and your field seminar.
BSW and incoming MSW students read and signed electronic forms of the NASW Code of Ethics, the School of Social Work Plagiarism Policy and the Student Rights and Responsibilities. In doing so, they agreed that while in the BSW or MSW Program they would honor the NASW Code of Ethics and Student’s Rights and Responsibilities, as well as adhere to the Plagiarism Policy and that should they not do so, sanctions would be imposed. BSW and MSW students are expected to adhere to these policies in the classroom, in the field and in the preparation of course assignments.

Reading Assignments:
Students are expected to have read all assigned material prior to the class date under which the readings are listed above. Reading and critically evaluating what you have read is necessary so that you can learn, actively participate in class discussions, and successfully complete written assignments.

Confidentiality:
Confidentiality is of utmost importance. In both written assignments and oral discussions and presentations, the rules of confidentiality, as expressed in the NASW Code of Ethics, are to be strictly observed. It is imperative to protect client identity at all times. The same rules apply to dialogue concerning co-workers or professionals and staff at the field placement site and/or agency of employment. Do not share information that would violate the confidentiality of clients or embarrass coworkers.

Written Assignment Policy:
All written assignments are to be either typed or computer-generated using Microsoft Word. Please format these assignments using one-inch margins, double-spacing, and a Times New Roman 12-point font. Always include a cover sheet (not counted as one of the required pages) with the title of the paper, your name, the date turned into the field faculty member, course number, and course title (do not put this information on the first page of your paper). You must use correct APA format for citations; consult the UW writing center’s guide for APA formatting (http://writing.wisc.edu/Handbook/DocAPA.html). When required to use references, you must use peer-reviewed journals. Websites may only be used with prior approval from the field faculty member. Failure to comply with these expectations will result in a loss of points. All assignments should be checked thoroughly for correct spelling and grammar.

Late Assignment Policy:
The assignments listed above are due at the beginning of the class period on the date specified. Students who believe they have a legitimate reason for turning in a late assignment should contact the field faculty member prior to the due date. Unapproved late
assignments will be marked down three points for each day they are late.

Accommodation Due to a Disability:
If you require accommodations to obtain equal access to this class or to any assignments that I may give, please contact me as soon as possible. I want all students to have an excellent learning experience. Students who are requesting an accommodation due to a disability are expected to inform the field faculty member and provide verification (e.g., from the McBurney Disability Resource Center) at the beginning of the semester or as soon as the need for an accommodation is determined.

Academic Misconduct:
Please note the following definition of academic honesty. “Academic honesty requires that the coursework (drafts, reports, examinations, papers) a student presents to an instructor honestly and accurately reflects the student’s own academic efforts. UWS14.03 cites that (among other things) Academic Misconduct Subject to Disciplinary Action includes an “act in which a student seeks to claim credit for the work or efforts of another without authorization or citation”. Examples include, but are not limited to: “cutting and pasting text from the web without quotation marks or proper citation; paraphrasing from the web without crediting the source, using another person’s ideas, words or research and presenting it as one’s own by not properly crediting the originator, etc.

Incomplete Policy:
According to University policy, an Incomplete may only be given when students, who have otherwise made good progress in the course, are prohibited from completing the course as a result of an emergency or crisis event in their lives. A grade of Incomplete or “I” will not be given unless the student meets the university policy criteria, and also contacts the field faculty member prior to the end of the semester to explain the situation and make arrangements for making up the required work.

Attendance & Class Participation Policy:
Class attendance is required of all students. Attendance is defined as arriving on time, staying through the entire class, and leaving only for scheduled breaks. In order for you and your classmates to benefit from this course, attendance and active participation are expected. Attendance will be taken at the beginning and end of each class and I will note your level of participation. If you are unable to attend class, please email me prior to class so that you can receive an excused absence; you may receive one per semester. Three points will be deducted from your grade for each unexcused absence incurred.
Inclement Weather Policy
If there is inclement weather across the Program area, students will be expected to check their email prior to leaving for class to confirm whether classes are cancelled.

If classes are not cancelled but an individual student concludes he/she cannot safely travel to reach his/her class site, the student must contact his/her instructor(s) regarding his/her plan to not travel. Students will be responsible for learning the material they missed.

Technology in Class:
A minimal level of external distractions is essential to a productive learning environment. Cellphones, iPods, iPads, and any other electronic devices are not to be used in seminar. Students are required to turn cell phones off or on vibrate before entering the classroom. Taking calls during class time interrupts teaching and learning. Please review the school’s policy on professional conduct which can be found in the Student Rights and Responsibilities Handbook pp. 10-12 Professional Conduct in All the Social Work Degree Programs.

Student Behavior Policy:
In order to learn, we must be open to the views of people different from ourselves. Each and every voice in the classroom is important and brings with it a wealth of experiences, values and beliefs. In this time we share together over the semester, please honor the uniqueness of your fellow classmates, and appreciate the opportunity we have to learn from each other. Please respect your fellow students’ opinions and refrain from personal attacks or demeaning comments of any kind. Finally, remember to keep confidential all issues of a personal or professional nature discussed in class. The following is a list of expectations of student’s display of personal integrity and professionalism, and successful adherence to these expectations will be measured and incorporated into both the field seminar grade and the field placement grade.

- Use of cell phones is limited to scheduled breaks, both in the classroom and in the field.
- Laptops are not to be utilized during field seminar.
- Respect is displayed for viewpoints with which you may disagree.
- Respect is displayed for each student and colleague’s right to be heard.
- A capacity to respect and appreciate diversity is displayed.
● Appropriate materials are brought to class and field placement.
● Student has read materials and prepared for class.
● Student displays qualities of an active learner, including taking notes when appropriate.
● Student actively and constructively participates in classroom and field site discussion.
● Careful, respectful language is utilized in all verbal and written communication with classmates, field faculty member, and agency supervisor.
● Student solicits and incorporates feedback when there are questions about performance
● Both in the classroom and the field, student proactively seeks clarification (prior to assignment due dates) if guidance or assistance is needed.

Students are expected to maintain a level of professional behavior in and out of the classroom. Disrespectful and unprofessional behavior in the classroom and field will not be tolerated and will be reflected in the final course grade. Disrespectful behavior will be determined at the discretion of the field faculty member. Some examples of this behavior are, but not limited to, talking while others are speaking, sleeping in class and not being respectful to peers, field faculty or to guest speakers. Field seminar is an extension of the field placement. Your grade in field seminar is based on successful completion of the competencies and behaviors, both in seminar and in the field. It is important to review the section, Professional Conduct in All the Social Work Degree Programs, which can be found in the Student Rights and Responsibilities Handbook. If you have any concerns with this policy, or a concern that needs to be brought to the class’s attention, please speak with this field faculty member. It is the student’s responsibility to contact the field faculty member for any clarification on disrespectful and unprofessional behavior.

**Code of Ethics, Professional Conduct & Plagiarism**
Incoming BSW and MSW students read and signed electronic forms of the NASW Code of Ethics, the School of Social Work Plagiarism Policy and the School’s Principles of Professional Conduct. In doing so, they agreed that while in the BSW or MSW Program they would honor the Code of Ethics and Principles of Professional Conduct, as well as adhere to the Plagiarism Policy and that should they not do so, sanctions would be imposed. BSW and MSW students are expected to adhere to these policies in the classroom and in the preparation of course assignments.

Plagiarism is a form of academic misconduct, which is not tolerated by the University or the School of Social Work. Plagiarism seeks to claim credit for the work or effort of another without citation or authorization.

The School of Social Work defines plagiarism as:

1. The appropriation of passages or complete works of another person and submitting them as one’s own work – in either
written materials or speeches.

2. The presentation of ideas of others as one’s own without giving credit. There are two major forms of plagiarism:
   - Using direct quotes from others’ written or spoken work and presenting them as one’s own words without using proper quotation marks or offsetting and/or with failure to identify the source of the ideas.
   - Paraphrasing the ideas or research findings of another person(s), with failure to identify the source of the ideas.

Note that slight changes to the author’s original text, even with a citation, is plagiarism. Please see http://writing.wisc.edu/Handbook/QPA_paraphrase.html

Process:
- If an instructor suspects a student has plagiarized, the instructor will contact the student to discuss their concern.
- If the instructor determines that the student has plagiarized, the instructor will decide on a sanction in accordance with the misconduct rules in UWS 14.

Sanction:
- Based on the seriousness of the sanction, the instructor may inform the Dean of Student’s Office. The only sanctions that can be imposed without notifying the Dean of Students Office are: 1) oral reprimand; 2) written reprimand presented only to the student; and 3) an assignment to repeat the work on its merits.
- More serious sanctions may include a zero on the assignment or exam, a lower grade in the course or failure in the course. The School of Social Work will inform the Dean of Student’s Office when imposing any of these sanctions. This action is taken so the Dean of Student’s Office can decide whether to seek additional sanctions.
- Repeated acts of academic misconduct may result in more serious actions such as removal from the course in progress, disciplinary probation or suspension, or expulsion (http://www.students.wisc.edu/doso/acadintegrity.html).
- Note: Students can appeal any sanctions.

For more information:
Academic misconduct rules procedures can be found in UWS 14: http://www.students.wisc.edu/doso/docs/UWS14.pdf

| Week 4, 5, 7 & 9 |
### 2.1.2 Engage Diversity and Difference in Practice

Advanced practice social workers demonstrate in a focus area an advanced understanding of how diversity and difference characterize and shape the human experience and are critical to the formation of identity. They demonstrate comprehension that dimensions of diversity are understood as the intersectionality of multiple factors including but not limited to age, class, color, culture, disability and ability, ethnicity, gender, gender identity and expression, immigration status, marital status, political ideology, race, religion/spirituality, sex, sexual orientation, and tribal sovereign status. Advanced practice social workers recognize that, as a consequence of difference, a person’s life experiences may include oppression, poverty, marginalization, and alienation, as well as privilege, power, and acclaim, and apply this recognition in their practice. They also demonstrate in practice their understanding of the forms and mechanisms of oppression and discrimination, and a recognition of the extent to which a culture’s structures and values, including social, economic, political, and cultural exclusions, may oppress, marginalize, alienate, or create privilege and power.

<p>| Each seminar week: Class consultation, check-in and problem-solving along with lecture, reading, assignments and group discussion related to dimensions of diversity issues in working with adults, older adults and families and the intersectionality of multiple factors affecting diversity in relation to race, culture, gender, sexual identity, poverty and privilege. Instructions for Evaluating Students on the Nine Competencies: Evaluation Component (Column 3)
The nine competencies specified in this evaluation form are those established by our national accrediting organization (the Council on Social Work Education). The student’s learning plan has identified the learning opportunities (e.g., methods, activities, and assignments) available for the student to achieve these competencies. Under each competency statement are several indicators, i.e., behaviors, which we ask you to rate, according to the following criteria, based upon their performance of the measurable methods of achievement (the observable learning opportunities). Students demonstrate mastery of a set of behaviors tied to practice competencies that are related to the mission and goals of social work in the field placement. Students gain experience and focus on skill development in their field placements related to the behaviors associated with the competencies.

Comments may be made under any competency statement, if desired. Please be sure to indicate those areas in which you think the student is particularly strong and those areas in which the student needs improvement. For the latter, please note specific strategies for making improvement or indicate that these will need to be identified during the three-way (agency supervisor, student and field faculty) evaluation meeting.

This evaluation is intended to give the student feedback about their performance. Students are expected to indicate if there are areas they do not understand and/or with which they do not agree. For the fall semester evaluation, the rating is based on what the student has accomplished to-date and how well they have accomplished it in terms of expectations, at that time, for achievement of the practice behavior. The spring end-of-semester rating indicates the “outcome” in terms of achieving the practice behavior. For the advanced generalist level student, the desired outcome is that of an autonomous social work practitioner. The Field Faculty will determine the student’s grade based on their overall evaluation of the student’s performance in the field placement in conjunction with performance in the integrative seminar.

*Note: The N/A rating is only applicable for the fall semester final.*
Competency 2.1.1
Demonstrate Ethical and Professional Behavior.

Advanced Generalist social workers demonstrate and employ in their focus area an understanding of the value base of the profession and its ethical standards, as well as relevant laws and regulations that may impact practice at the micro, mezzo and macro levels. They understand and utilize frameworks of ethical decision-making and autonomously apply principles of critical thinking to those frameworks in practice, research, and policy arenas. Advanced Generalist social workers demonstrate awareness of their personal values and an ability to distinguish them from professional values. They also possess and employ an understanding as to how their personal experiences and affective reactions influence their professional judgment and behavior. Advanced Generalist social workers understand the role of other professions and use this understanding to engage effectively in inter-professional teams. They have a commitment to life-long learning and continually update their skills to ensure they are relevant and effective. Advanced Generalist social workers also are knowledgeable about the emerging forms of technology and ethically use this technology in social work practice. Advanced Generalist Social Workers:

**Competency 2.1.2**

**Engage Diversity and Difference in Practice.**

Advanced practice social workers demonstrate in their focus area an advanced understanding of how diversity and difference characterize and shape the human experience and are critical to the formation of identity. They demonstrate comprehension that dimensions of diversity are understood as the intersectionality of multiple factors including but not limited to age, class, color, culture, disability and ability, ethnicity, gender, gender identity and expression, immigration status, marital status, political ideology, race, religion/spirituality, sex, sexual orientation, and tribal sovereign status. Advanced practice social workers recognize that, as a consequence of difference, a person’s life experiences may include oppression, poverty, marginalization, and alienation, as well as privilege, power, and acclaim, and apply this recognition in their practice. They also demonstrate in practice their understanding of the forms and mechanisms of oppression and discrimination, and a recognition of the extent to which a culture’s structures and values, including social, economic, political, and cultural exclusions, may oppress, marginalize, alienate, or create privilege and power.

Competency 2.1.5
Engage in Policy Practice.

Advanced Generalist social workers demonstrate a developed understanding that human rights, social justice, social welfare and services in a focus area are mediated by policy and its implementation at the federal, state, and local levels. They understand the history and current structures of social policies and services in a focus area, the role of policy in service delivery, and the role of practice in policy development in a focus area. Advanced Generalist social workers understand, demonstrate, and engage policy development and implementation within a focus area practice setting at the micro, mezzo, and macro levels to affect change within those settings. They recognize and understand the historical, social, cultural, economic, organizational, environmental, and global influences that affect social policy in a focus area. They also demonstrate advanced levels of knowledge about policy formulation, analysis, implementation, and evaluation in a focus area.
