Opportunities at TSA

Therapeutic Services Agency, Inc is seeking to add additional licensed mental health professionals or clinical trainees (Master’s degree in Social Work, Marriage and Family Therapy, Professional Counseling, Psychology or related field) to work in our school linked mental health program. These are multiple position opportunities to join an enthusiastic team of therapists providing mental health services in schools located in Pine City School District, Rush City School District, North Branch School District and Chisago School District. Specific school assignments will be determined with selected candidates. Desired qualities include persons on professional licensure track or licensed, with positive interpersonal relationship skills, works well with other professionals in school setting, knowledge base and effective therapeutic readiness to provide individual, family, group and play therapy services. CTSS experience preferred but not required, computer and organizational skills needed.

We are seeking candidates with specialty training and experience working with preschool age children early elementary students to conduct DC 0-3 Assessments and provide mental health services with young children and their families. Positions are open in the North Branch pre-school/Sunrise Elementary and at Taylor Falls Elementary School.

Positions are full time, compensation and benefits are competitive and agency is supportive. This is an excellent employment opportunity. For more information about the agency, visit www.hoperealized.com. Applicants please send a letter of application and resume’ to Chris Harnack at charnack@tsapc.net. Therapeutic Services Agency is an equal opportunity employer.
