I. Catalogue Description
This is an advanced practice course on social work treatment methods with children and adolescents from a cognitive behavioral perspective. Assessment, treatment and generalization of change strategies; problem-solving; resource development; intervention planning and other practice issues are explored.

Attributes and Designations: Counts toward 50% graduate coursework requirement.

Requisites: Must be a Part-Time MSW Program student at Madison.

How credit hours are met: This course meets for one 4-hour class period each week during the 7 week session and carries the expectation that students will work on course learning activities (reading, writing, studying, etc.) for about 8 hours each week. The syllabus includes additional information about meeting times and expectations for student work.

II. Course Overview
This Advanced Generalist Specialization course is designed to provide mental health and CYF graduate students with more in-depth knowledge of practice theories and techniques for direct practice with children, adolescents and their families. The first part of the course is geared toward providing you with a basic orientation to working with children and adolescents. We will review current treatment trends with youth and concepts such as evidence based practice, developmental theory, and psychopharmacologic treatment. We will also consider issues in the field of child mental health treatment relating to professional ethics, and orientation toward working with diverse populations. Finally, we will consider general principles for clinical interviewing, assessment and treatment planning with youth. In the second part of the course, we will study the application of three treatment modalities with youth (individual, family, and group), focusing on the unique aspects of working with young people and their families. Finally, in the third part of the course, we will focus on how to approach the assessment and treatment of specific youth populations or problems areas.
The topics covered in this course are designed to promote students’ ability to recognize and apply clinical skills to help children and adolescents with mental health challenges problems regardless of the type of service setting you work in (school, child welfare, mental health clinic, health setting, etc.).

**III. Learning Outcomes: Competency Descriptions and Dimensions**
Social Work Education is framed by a competency-based approach to curriculum design. At the conclusion of their education, social work students are expected to be competent in 9 core areas. Competency is achieved through mastery of course content as measure through course activities, readings and assignments and behaviors learned in field experiences, and which are derived from social work knowledge, values, skills and cognitive and affective processes. The objective of this course is to help students to demonstrate understanding and mastery of the knowledge, values, skills and cognitive and affective processes relevant to the competencies described in Appendix A.

**IV. Course Content:**
Students are required to complete all outside readings for each week prior to class, including review of assigned websites. This course is designed as an interactive seminar that uses a variety of formats to integrate class with practice experiences that students encounter in field training. Active, meaningful participation in class sessions is essential for an optimum learning experience. The course will include some lecture, use of media, outside guest speakers, and considerable opportunity for discussion and critical thinking.

We will examine assessment and treatment for children and adolescents through a variety of lenses, the most prominent being diversity and trauma. Students should come to class prepared to discuss interventions described in readings, websites and by guest speakers.

*Instructional Caveat: the Instructor reserves the right to modify this syllabus, the assignment schedule, and/or any materials related to the completion of this course in the time allowed without jeopardizing any course objectives.*

**Overall Participation**

Effective participation is when a student is prepared for class and engages in the learning process. *Being prepared* means: Present, prompt, and having completed readings/assignments. *Engaging in the learning process* means: Being able to present social work issues, alternative perspectives for discussion, and responding to other students who present issues. This can be observed when the students: Integrate social work concepts with field and other experiences, are responsive to other students, engage in problem solving issues, and contribute to in class exercises. Participation can be challenging for some students. Please see instructor EARLY in the semester if you need any assistance in this or any other areas. Additional information related to attendance can be found in the course policy section. (Worth 5 Points)

**II. Course Policies**

**Promptness**

Prompt arrival to all course sessions is required.
- Instructors may take actions they deem appropriate if a student is consistently tardy
- Instructors may also consider a significantly late arrival or early departure as an absence

**Attendance**

Due to the accelerated nature of courses in the University of Wisconsin-Madison Part-Time MSW Program, students are expected to attend all scheduled classes and to arrive on time.

**Absence**

To ensure a quality educational experience, students must attend and participate in classes.
- Attendance will be taken at each class and students’ level of participation noted
- Excused & Unexcused Absences:
  1) The first unexcused absence will result in a student’s grade being dropped one full grade
  2) The second unexcused absence will place the student at risk for failing the course
  3) On a case by case basis, it is left to the instructor’s discretion as to what is defined as an excused absence as well as to determine appropriate follow up plans
• Additional graded make-up work appropriate for the content missed will be assigned for excused and unexcused absences.
• Students are responsible for completing any class requirements for the day missed, and for obtaining from a fellow classmate any assignments, materials, and communications missed due to absence, late arrival, or early departure.
• Students who must be absent due to inclement weather or other emergencies should contact the instructor prior to the start of class to be considered for an excused absence.
• Inclement Weather Policy
  1) For weather concerns, check your email Friday night and/or Saturday morning prior to class, in the event that class might be cancelled due to dangerous weather
  2) If classes are not cancelled but an individual student concludes he/she cannot safely travel to reach his/her class site, the student must contact his/her instructor(s) regarding his/her plan to not travel. This absence will be considered excused and makeup work may be assigned.

Assignment Guidelines
All assignments (aside from the Cultural Self-Assessment Paper) are to be referenced using APA format, typed in 12-point font and double spaced. The evaluation of all written work will also include the style, spelling and grammar of papers.

Assignments should be turned in through UW dropbox (not via email!) by 5:00 on the day it is due. Unapproved late assignments will be marked down a ½ grade for each day they are late, and approval for a late assignment must be requested prior to the time the assignment is due. You are in charge of keeping track of when your assignments are due, and are responsible for handing them in on time. Please contact me as soon as possible if any unusual circumstances arise.

Canvas
All students in the class are required to access Canvas for additional communication and information regarding the course. Please check Canvas on Friday evenings for student Power Points/Outlines when available and other resources pertinent to class the next day. I will respond to email communication every 24 hours (to be checked once per day, most likely in the evening). Please let me know if you have trouble accessing information in this way.

At times there have been issues with Word document compatibility, so open documents early to check for problems, and let me know if you need docs saved in a different version of Word.

Professionalism and Participation
This is a reading-intensive course and you are expected to come to class prepared for discussions and small group exercises, having read the assigned material BEFORE CLASS and noted questions or issues you would like to discuss. The quality of class discussions will be largely dependent on all participants’ ability and willingness to share input from readings and their own experiences outside of class. Please speak up when you have a point to make, a question, or a disagreement. While I recognize that students vary in their comfort level related to speaking up
in class, it is important for your professional training to sometimes take a stand, question how or why, and generally practice communicating with colleagues and supervisors.
To strengthen the connection between course content and practice, students are invited to share case material and issues/concern regarding practice in class. Everyone in the class is expected to respect the confidentiality of their clients and classmates in relation to information shared in class. This means avoiding the use of accurate names or mention of any unique identifying characteristics (e.g. 10th grader from Ghana). You are also expected to demonstrate tolerance and openness to various opinions and ideas presented in class, even if they diverge from your own.

In order to learn, we must be open to the views of people different than ourselves. Each and every voice in the classroom is important and brings with it a wealth of experiences, values and beliefs. In this time we share together over the semester, please honor the uniqueness of your fellow classmates, and appreciate the opportunity we have to learn from each other. Please respect your fellow students’ opinions and refrain from personal attacks or demeaning comments of any kind.

**A Note on Plagiarism**

Plagiarism involves the use of others’ words, ideas, or evidence without clearly acknowledging the source. Plagiarism in this class (and other classes) is unacceptable and will be treated as a serious ethical breach with possible penalties including: a failing grade on the assignment, failing the class, and/or referral to the Dean of Students Office.

Maintaining ownership of your work is often challenging when writing papers using multiple sources. Nevertheless, intentional plagiarism is academic dishonesty. Plagiarism occurs when you do any of the following in an assignment:
- Use someone else’s words either verbatim or almost verbatim without citation (even if the work does not have a clear author—for instance in a website)
- Use someone else’s evidence, line of thinking or idea without citation
- Turn in someone else’s work as your own, as in copying a peer’s paper or purchasing a readymade paper
- Turn in previously submitted work as if new, without the instructor’s approval

**Use of Technology in The Classroom**

In order to learn, you must be respectful of the learning environment by using technology appropriately in the classroom. Please turn off your cell phones at the start of class. Plan ahead that any electronic communication should be done before/after class, or during break. In the event that you have a possible emergency situation and you believe you might have to use your cell phone during class, please let the instructor know before class/during break and leave the classroom to quickly address your concern.

If you would like to use a laptop for lecture notes (and only lecture notes), please speak to the instructor prior to class.
If you use technology in an inappropriate or disruptive manner, you will be asked to leave the class. Repeatedly using technology in an inappropriate or disruptive manner may impact your grade.

**Ongoing Feedback**
I want to be an asset to your learning process. I will be available to discuss any aspect of the course or your work. I will plan to check email on a daily basis and make every effort to respond to emails within 24 hours. If you would like to schedule a phone consultation or meeting on campus, please inform me in advance so we can allow time for this to be scheduled.

I greatly appreciate on-going student input regarding reactions, suggestions, and/or concerns about the course. Feedback and suggestions for improving this course are always welcomed. Feel free to see me personally if you have any concerns about any part of the course. In-person or written comments are always welcome (anonymous or identified).

**Note On Accommodation Of Student Disability**
The University of Wisconsin-Madison supports the right of all enrolled students to a full and equal educational opportunity. The Americans with Disabilities Act (ADA), Wisconsin State Statute (36.12), and UW-Madison policy (Faculty Document 1071) require that students with disabilities be reasonably accommodated in instruction and campus life. Reasonable accommodations for students with disabilities is a shared faculty and student responsibility. Students requiring accommodation, as approved by the McBurney Center, are expected to provide the instructor with a Faculty Notification Letter by the second week of the semester, or as soon as possible after a disability has been incurred or recognized. For more information, please contact the McBurney Center at mcburney@odos.wisc.edu; Phone at 608-263-2741; Text messaging at 608-225-7956; or by FAX at 608-265-2998, 711 (Via relay); Address is 702 W. Johnson St. #2104, Madison, WI 53706

This faculty will work directly with the student and in coordination with the McBurney Center to identify and provide reasonable instructional accommodations. Disability information, including instructional accommodations as part of a student's educational record, is confidential and protected under FERPA. If you require accommodations to obtain equal access to this class or to any assignments that I may give, please contact me as soon as possible.

**Final Note:**
I very much hope together we can make this class interesting and useful for your future endeavors.
